DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1,5-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Nozaki et al for the reasons stated in paragraph 2 of the prior office action.
4. Claims 1,4,6,8-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Ito et al for the reasons stated in paragraph 3 of the prior office action.
5. Claims 1,5,8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Cho et al. (SPIE article) for the reasons stated in paragraph 4 of the prior office action.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
6. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Nozaki et al '197 cited above, Ito cited above or Cho cited above for the reasons stated in paragraph 6 of the prior office action.

Response to Arguments

7. Applicant's arguments filed July 11, 2003 have been fully considered but they are not persuasive. Applicant argues the amendment to claim 1 makes the claim allowable over the prior art of record

Art Unit: 1752

however this argument is not persuasive. The amendment to claim 1 makes the polymer "consisting essentially of" a monomer having formula 1.

As stated in section 2111.03 of the MPEP the transitional phrase "consisting essentially of" limits the scope of a claim to the specified materials or steps "and those that do not materially affect the basic and novel characteristic(s)" of the claimed invention. Thus the polymer is limited to monomers that do not materially affect the basic and novel characteristic(s)" of the claimed invention. Page 5 of the specification teaches other monomers which may be added to the polymer, such as maleic anhydride, cycloalkenes and cyanomethacrylate. Thus the polymer is not a homopolymer of formula 1 but may have additional monomers as in the prior art of record.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
